Description

The BA75 is an aluminum boat with a unique design and style from the Bravaboats shipyard. It has an overall length of 8.3 meters and a beam of 2.5 meters, which can be fully utilized. The bow features a two-meter-long sundeck for sunbathing and relaxation. The helm station is located amidships, equipped with everything needed to enjoy the day. The aft cockpit offers comfortable sofas with two removable tables. The seating arrangement is designed to create a spacious area between passengers, allowing for easy conversation while underway. It reaches a maximum speed of 47 knots thanks to its 300 HP engine and the boat's hydrodynamic design. Fuel consumption ranges from 35 to 65 liters per hour. The Bravaboats shipyard has extensive experience building professional and durable boats, a style evident in its models.
