Technical equipment	**battery charger, davits, inverter, bow thruster, stern thruster**
Deck equipment	**fenders**
Interior equipment	**heating, refrigerator**
Entertainment instruments	**television**

Description

This text has been translated automatically.

The Breedendam MTB FourZero radiates pure class with beautiful classic elements and lines. The yacht combines comfort with sporty performance thanks to its aluminium hull and smooth Volvo Penta IPS600 drive train. Thanks to the Volvo Penta IPS joystick control, berthing and mooring has become child’s play. The open cockpit and the wheelhouse can be easily and openly connected to each other, allowing for plenty of contact. In the wheelhouse there is a spacious U-shaped bench at standing height near the helm station. Via an open connection, the dinette and galley can be reached below deck. The dinette table can be lowered, creating an extra sleeping place. Electrically sensitive equipment is housed in a separate technical room, with the option of extra storage. The toilet and shower have their own compartment and are centrally accessible in the boat. In the forecabin there is a 2-person French bed. Equipment and options: cockpit benches with removable cushions, Webasto electric sliding roof above the helm station, wine climate cabinet in the wheelhouse, TV in the wheelhouse / dinette / forecabin, adjustable luxury helm seat, Miele dishwasher, Bose audio system, Yachtcontrol shipmanagement display, cooling and heating independently adjustable per compartment via the air conditioning system, engine room accessible via the open cockpit, removable sunbathing mattress on the foredeck, electrically folding radar mast, insect screens for porthole windows, electric pleated blinds, integrated bow lights, fender storage in the cockpit for 4 fenders, electrically extendable bilge keels, deck wash pump, 2 x solar panels, central vacuum system, electric drop-down window in the wheelhouse aft bulkhead. Large parts of the paintwork are wood-look, meaning it is not real wood but has been painted in a special way so that it looks like real wood. For questions and/or to make an appointment, you are warmly welcome 7 days a week at Elburg Yachting.
