berths	**9**

Technical data

Draught	**1.50 m**

engine

Power	**44 hp (32 kW)**

Description

This text has been translated automatically.

Schooner built in Lebanon cedar in 1986 by shipwright Piero Crosato to designs by Carlo Sciarrelli (no. 106*).
The design derives from the 1736 schooner St. Ann, and is the definitive version of prototype no. 90 San Nicolò.
The rig is a bug-eye schooner, typical of American working schooners.
The boat was acquired in 2015 by a new owner specialising in the restoration of vintage hulls, who fully restored her while maintaining her originality.

Boat ready on mooring, always well maintained by the owner.
