Sporty, fully equipped and ready for new adventures
This 2020 Dehler 38 is a sporty and comfortable sailboat with high-quality sailing equipment, extensive navigation electronics and several recent technical upgrades. In the summer of 2026, the boat successfully completed a solo passage from southern France to the Netherlands, including the Bay of Biscay.
This Dehler 38 offers an attractive opportunity for sailors looking for a modern, complete sailboat with many recent investments, suitable for both sporty sailing and longer offshore passages.
A boat with a special story
The boat was purchased new in 2020 by its first owners, a French couple, and has since been kept in a harbour near Nice. In June 2026, the boat was taken over by a Dutch entrepreneur who was not looking to own a sailboat, but rather the adventure of a solo sailing passage to the Netherlands.
Prior to this passage, various components were invested in for maintenance and renewal. In July and August 2026, the boat then made the passage from southern France to the Netherlands independently. The passage was successfully completed and the boat has been thoroughly tested at sea.
The combination of recent technical investments, high-quality equipment and actual use during a long sea voyage makes this Dehler 38 particularly interesting for a new owner who wants to enjoy sailing straight away.
All invoices for the work carried out are available.
Recent upgrades and maintenance
In 2026, the following work was carried out, among other things:
Underwater hull: new antifouling applied in June 2026. Propeller anodes have been renewed.
Service batteries: two new batteries of 160 Ah each installed in June 2026. Part of the wiring has also been renewed and neatly organised.
Engine battery: new battery of 90 Ah installed in June 2026.
Navigation and safety: new AIS class B installed in July 2026, radar reflector renewed.
Navigation software and charts: updated in August 2026, including a three-year subscription.
Engine: Yanmar diesel engine of 40 hp, serviced and in very good condition.
Sail drive: the sail drive seal was replaced in August 2026.
Dodger: the windows have been renewed and the stitching has been renewed.
Lazybags: the stitching was renewed in August 2026.
Sails: the sails are in good condition. The genoa was re-stitched in August 2026 after the passage across the Bay of Biscay. The UV protection of the headsail has also been renewed.
Electric toilet: pump and controls were renewed in June 2026.
Dinghy: a new dinghy has been acquired.

Sails and deck equipment
This Dehler 38 is equipped for sailors who want to combine performance and comfort.
High-quality ELVSTRÖM HPM membrane high-performance sails.
Six Lewmar race winches, one of which is electric: 2 × 40, 2 × 45 and 2 × 50.
Bow thruster for comfortable manoeuvring in harbours.
Three solar panels, one of which is due for replacement.
Extra retractable sunshade for shade in the cockpit and on the aft deck.
Safety line for extra safety when sailing at sea.
Life raft on board; re-certification is required.
Draught of approximately 1.60 metres, favourable for many Dutch cruising areas.

Navigation and electronics
The boat has extensive navigation equipment, both outside at the helm stations and inside.
Two B&G Zeus 7-inch chartplotters at the helm stations.
Autopilot with Triton² display and Precision-9 compass.
VHF radio inside and an extra portable VHF for outside (H60).
AIS class B, newly installed in July 2026.
Fusion MS-RA70N multimedia system with Bluetooth.
Four speakers: two inside and two outside.
Television with antenna in the mast.

Interior and comfort

The boat has three cabins and thus offers comfortable accommodation for holidays with family or friends and for longer sailing trips.

The Dehler 38 combines sporty sailing characteristics with a practical layout and extensive equipment. This makes the boat suitable for both relaxed holidays and more ambitious sailing adventures.

In summary

A sporty and complete 2020 Dehler 38, with high-quality sailing equipment, extensive navigation electronics and a range of recent technical upgrades. The successful solo passage from southern France to the Netherlands in the summer of 2026 confirms that the boat has recently been used extensively at sea.

The combination of recent investments, extensive equipment and complete documentation of the work carried out makes this a particularly attractive offer.
