Description

This custom made modern style 27,5m motor yacht designed and constructed for a client for private family cruises in Arkin Pruva shipyard. The boat has exceptional interior and exterior volumes compared to similar size boats thanks to its wide beam and four decks.

The boat accomodates three guest cabins and one crew cabin on lower deck, saloon and galley on main deck, master cabin and wheelhouse on upper deck.

Future Line has sharp and modern unique exterior lines and enormous open spaces on main, upper and flybridge decks. Hydraulic lifting aft swimming platform which also carries tender boats leads to the aft garage area for owners water toys, scooters and a workbench. Jetski stored in a dedicated space under deck and launched by a side door on hull. Anchor windlasses located under deck which gives clear space on bow deck even at anchor.

Twin 1.400 HP MAN and four electric stabilizers quarantee fast and comfortable cruises. Constructed under RINA hull rules plus CE certification this project proves different capabilities of the yard.
