Fuel tank	**250 ltr**

engine

Model	**Ford Lehmann**
Power	**120 hp (88 kW)**

Equipment

Technical equipment	**holding tank, solar plant, underwater paint**
Deck equipment	**bathing ladder, gangway**
Persennings	**sprayhood**

Description

This text has been translated automatically.

Imagine casting off the lines on Saturday morning and having the whole day to yourself. With the Gruno 35 Compact Classic you can head to a quiet anchorage, swim from the bathing platform, or spend a few nights on board while the coffee brews in the saloon.

Technical data and highlights
• Model: Gruno 35 Compact Classic, motor yacht
• Shipyard: Gruno, Netherlands
• Construction: steel displacement boat
• Year built: 1980
• Length: 10.00 m
• Beam: 3.40 m
• Draft: 1.00 m
• Height above waterline: 2.50 m
• Displacement: approx. 9 t
• Engine: Ford Lehman 120, 6-cylinder diesel, 88 kW (120 hp), inboard
• Gearbox: renewed 1999
• Diesel tank: 250 l
• Fresh water: 300 l
• Waste water tank: 150 l with pump
• Steering positions: 2
• Heating: oil heating
• Energy: solar plant with inverter, large battery charger (approx. 2000)
• Batteries: 3 × 180 Ah house, 1 × 140 Ah starter
• Power supply: 2 inverters for 230 V
• Berths: forecabin 2 berths with locker, saloon with 2 possible berths
• Extras: bathing platform with bathing ladder, stern anchor on the aft platform, inflatable dinghy on davits, bicycle shelter
• Trailer: road trailer, approved for 25 km/h

Restoration since 2018
• 2018: underwater hull blasted and welded, all through-hulls renewed, hard antifouling, hull painted and varnished
• 2019: new windows, new interior wall coverings, gangway with non-slip covering
• 2022: complete galley renewed
• 2023: new spray hood and sun awning, new saloon floor
• 2025: hull repainted, underwater hull again with hard antifouling, new superstructure woodwork at the second steering position
• 2026: general engine overhaul with new water separator, all seals and hoses, new main switch and new alternator

Layout and comfort
In the forecabin two people have their berth, plus a locker. The bathroom has shower, WC and washbasin, and the galley has been new since 2022. The saloon offers two further possible sleeping places and room for cosy evenings on board.

Why this boat
A steel hull forgives a lot if it is well looked after. On this Gruno the underwater hull was blasted, welded and fitted with new through-hulls in 2018, and the paint followed in 2025. If you are looking for a solid basis, here is a boat whose major projects are already behind it.
Solar, inverter and 540 Ah house batteries make the Gruno largely independent of shore power. The large tanks with 250 l diesel and 300 l water mean fewer stops and more time at the anchor chain. If you want long summer evenings on the water instead of traffic jams on the motorway, here is a boat built for exactly that.

Condition and maintenance
The restoration of the last eight years is documented in order by year, and the general engine overhaul was carried out in 2026. Engine operating hours are not yet available. We strongly recommend a viewing.
