Guy Couach 1901 FLY from 1994!

Rare 4-cabin version!

Large aft deck with direct access to the cockpit.

Large 3-leaf aluminium sliding window for a wide opening onto the saloon.
Good-sized saloon to port with a folding wooden table.

Then we have the galley to starboard, with a side door giving access to the side deck.
Also to starboard is the dining area with a large round table.

On the other side, the spacious, well-clear helm station with a side door, and a office area with the third side door.
The boat is therefore very well ventilated, without needing to switch on the air conditioning systematically.

For the sleeping quarters, two forward cabins: one with a double bed, and the second with two separate beds.
A side guest cabin with two single beds.

The master cabin is located in the centre of the boat, occupying the full beam.

The interior joinery is in varnished satin-finish cherry wood, which makes it very contemporary.

The boat is very well equipped: Kohler 8kW generator, 160 l/h watermaker, Condaria 3600 BTU air conditioning, Victron 3500 W 24V/220V inverter, washing machine, dishwasher, freezer, ST TrackVision TV5 antenna, electric freshwater toilet, etc.

Possibility of a berth in Port-Camargue.
