Deck equipment	**bathing ladder, integrated bathing platform**
Interior equipment	**barbecue, gas hob, sink, chemical toilet**
Layout of the boat - cabins	**inside steering position**

Description

This text has been translated automatically.

Your own Hausboot, no ongoing yard costs – and full control over maintenance, care and use.
This Hausboot is deliberately designed so that you stay independent: GRP-sheathed wooden floats, each with five chambers and inspection hatches, plus a demountable construction. You can carry out maintenance and upkeep yourself – no slipway, no external dependencies, no ongoing additional costs.
Built in 2012 and well maintained. The Honda outboarder with 15 hp and electric start has only 55 operating hours – a setup that has hardly been used and is ready for immediate use. No repair backlog, no retrofitting.
On board you will find everything you need for uncomplicated days or weekends on the water: galley with gas cooker, bathroom with chemical toilet, sleeping berths for two people and a functional 12V onboard electrical system. The foredeck with seating and barbecue quickly becomes the central gathering place, and additional storage in the stern keeps everything tidy on board.
The mooring in Werder (Havel) is already included – you are not only acquiring the boat, but also direct access to one of the most sought-after waterside locations in Brandenburg. No searching, no waiting.
In short: a Hausboot for anyone who doesn’t want to buy into maintenance effort but wants real independence – with its own berth and ready to use immediately.
The key facts: 7.5 × 3.65 × 0.25 m | Built 2012 | Honda 15 hp petrol outboarder | 55 operating hours | Condition good, well maintained | Location: Werder (Havel), mooring included
