Latest version of the Hunter 36
This boat, acquired from its first owner, is equipped for offshore sailing and has a bow thruster as well as a recent mainsail. Hunter is known for its innovative equipment and exceptional comfort.

The hull, reinforced with Kevlar for greater safety in the event of impact and built in vinylester resin, ensures optimal strength and durability. The boat is fitted with a hoop that provides a large bimini top coverage area, thus offering extensive sun protection. The mainsail control system is particularly effective thanks to its large traveller car, while the crew benefits from enhanced protection against the boom.

Inside, Hunter offers superior-quality joinery, with Corian worktops, synonymous with elegance and practicality. Scotchgard fabrics protect surfaces against stains, and the pushpit seats, emblematic of the brand, add a distinctive touch to this model.

The Hunter 36 combines performance, safety and comfort, making it an ideal choice for demanding cruising enthusiasts. Possibility to buy out the berth under a long-term lease (amodiation).
