Description

THIS SHIP IS BEING AUCTIONED VIA AN ONLINE AUCTION BY (website in contact data).
INTERBOAT 22
The Interboat 22 has been known for years as one of the highest quality and most versatile sloops in its class. The “Haringvreter” perfectly demonstrates why this Dutch design is so popular among water sports enthusiasts who want to combine comfort, reliability, and a classic appearance with excellent handling characteristics. This 2010 Interboat 22 was built by Interboat and combines a timeless clinker design with modern comfort and solid craftsmanship. Thanks to its generous dimensions of 7.20 meters long and 2.55 meters wide, the sloop offers a surprising amount of space on board, with comfortable seating for up to 8 to 10 people. This makes the vessel ideally suited for pleasant day trips with family or friends, but also for longer voyages on open inland waters.

The wide stern and stable V-hull ensure comfortable and predictable handling characteristics, even when the water becomes somewhat rougher. Furthermore, the deep cockpit and high backrests contribute to a safe and relaxed feeling on board. Thanks to the low air draft of approximately 1.15 meters, the Interboat 22 is also ideal for voyages through waterways with many bridges. This version is equipped with the powerful and reliable 33 hp 4-cylinder Vetus diesel engine, coupled to a shaft drive. The engine is positioned deep beneath the floor, resulting in a remarkably quiet and comfortable ride. Maneuvering is particularly easy thanks to the electric Vetus bow thruster, which was installed in 2022. The “Haringvreter” was purchased by the current owner in 2016 as a second owner and has been carefully maintained ever since.

Since 2016, the vessel has been stored indoors on a trailer every winter, during which time engine maintenance was also consistently performed. This maintenance history inspires confidence and underscores the well-kept overall condition of the ship. In terms of equipment, this Interboat is also particularly complete. On board, you will find, among other things, a luxurious black convertible top with a raised aft section from 2021, a winter cover, a radio system with four speakers and remote control, an integrated swimming platform with teak inlay, a swimming ladder, and various comfortable seating and lounging options. The spacious open cockpit forms the heart of the ship and makes long days on the water particularly pleasant. The combination of a classic appearance, high-quality finish, reliable engineering, and comfortable handling characteristics makes this Interboat 22 a very attractive sloop within the current range. An ideal choice for anyone looking for a high-quality Dutch sloop with which they can immediately enjoy the boating season carefree.
