Description

For sale for a reasonable offer: the Marretje Anna is a very well-maintained Zeeschouw. You will not easily come across a boat of this age in the same condition. The owners have always cared for her with great love. Thanks to the extra heavy bottom plate, she is very stable. This Zeeschouw is a fast-sailing vessel that is also very suitable for open water. The owners have made various trips to the Baltic Sea and Norway. And with a draft of 85 centimeters, she is also very suitable for the Frisian Lakes and the Eastern Wadden Sea, among others. In short, a very versatile ship. She overwinters in a hall, where she was painted in the winter of 2024.
