Italian design for demanding excursions!

Newly added to our charter fleet from 2012, we present the “Ferrari on the water”, the MAR-CO e-motion 32. This speedboat is the ideal combination of sporty driving fun and comfortable space. With its 700 hp (2x350 hp) it takes you at a considerable cruising speed of 40 miles from its berth in Marina Kremnik (Croatia) to your desired destinations, e.g. the Kornati Islands. Up to 10 persons can be carried on board the 9.98 m long and 3.27 m wide boat, built in 2010. The well-thought-out equipment of the boat makes for a comfortable stay, for example if you want to spend an undisturbed bathing day with friends in a secluded bay. This includes the spacious coolbox as well as the generous bathing platform, the practical bathing ladder and the stern shower with hot and cold water. The bimini top offers protection from too much sun, especially when you use the hydraulically retractable table to turn the U-shaped seat bench into a comfortable sun lounger. Incidentally, another lounging area with mattresses is located at the bow of the speedboat. All walkable surfaces are made of fine teak. Below deck there is one cabin for two persons, as well as a washroom incl. WC.
