Description

This text has been translated automatically.

This beautiful Marex 375 from 2018 is among the most popular models of the Norwegian shipyard. The boat is known for its well-thought-out layout, high-quality finish and excellent sailing characteristics. Thanks to the spacious saloon and the clever connection with the cockpit, there is a generous living area that can be used optimally in all weather conditions. One of the distinguishing features of the Marex 375 is the innovative, quick-to-close cockpit cover, with which the cockpit can be fully sheltered in a matter of moments. In addition, the boat has two comfortable cabins, a spacious wet cell and plenty of practical storage space, which makes longer stays on board very pleasant too. This Marex 375 is supplied with, among other things: defroster in cockpit, deck wash system, dishwasher Bomann (2025), reversing camera, radio + subwoofer, sunroof, sun protection for wheelhouse windows, insect screen for aft deck door, Zipwake dynamic trim control system, satellite antenna and underwater lighting. The combination of Scandinavian design, an efficient layout, plenty of natural light and a high level of finish makes the Marex 375 an ideal choice for both relaxed day trips and multi-day voyages. This 2018 version is fully equipped for carefree boating pleasure. The consumption of this Marex 375 at a cruising speed of approx. 6 knots is only 4 litres per hour. For questions and/or to make an appointment, you are very welcome 7 days a week at Elburg Yachting.
