Description

This text has been translated automatically.

This 2018 Master 855 is a high-end RIB, particularly spacious, designed to offer an excellent balance of performance, navigation comfort and ease of use at anchor. With its 8.80 metres of length including the platforms and 3.35 metres of beam, it has generous volumes and can accommodate up to 20 people according to the manufacturer’s certification. Master Gommoni

This unit stands out for its Volvo Penta V8 inboard engine developing 370 hp, with only 240 hours on the clock. The service has just been carried out by Volvo and the antifouling has also been applied, so the boat is ready to enjoy the season.

Manoeuvring in port is made easier by the recent installation of a bow thruster worth €3,500, a real asset on a RIB of this beam.

The general presentation has also benefited from a significant upgrade with brand-new upholstery. The outdoor areas are particularly generous, with two large sunbeds allowing you to fully enjoy days at anchor. The boat also has a large refrigerator, a head and a Hi-Fi system.

The Master 855 has a pronounced V-hull and a hull designed to retain dynamic handling while offering good comfort in chop. An independent test carried out on a version fitted with a 400 hp outboarder recorded a top speed of 43.5 knots, confirming the sporty character of this hull. The performance of the present V8 inboard 370 hp version may naturally differ.

The navigation equipment includes a GPS tracker, a fishfinder, an echo sounder and a speedometer, giving the helmsman the main information needed for navigation and for locating fishing grounds.

With its 420-litre fuel tank, 77-litre water capacity, large rear platforms and numerous relaxation areas, the Master 855 is ideally suited to day trips with family or friends.

A trailer worth approximately €6,000 is also available separately at a special price of €2,500 as an optional extra.
