Description

Maxima 37 – 2023 – Volvo Penta D4 270 hp – very luxuriously equippedAre you looking for a modern, comfortable, and exceptionally complete motor yacht? This **2023 Maxima 37 Cabin** combines a contemporary design with ample living space, high-quality finishes, and excellent amenities for relaxing boating holidays. This Maxima 37 is in very good, virtually new condition and is exceptionally well-equipped with numerous extras. An excellent opportunity for those seeking a young and luxurious motor yacht without the long delivery times of a new vessel.

Space, comfort and a well-thought-out designWith a length of 11.60 meters, a width of 3.80 meters, and a draft of just 1.05 meters, the Maxima 37 Cabin offers a spacious living environment. The air draft is approximately 3.00 meters. The wide side decks, the spacious aft cockpit, and the extended swimming platform ensure a practical layout and a comfortable connection with the water.

Inside, the modern, luxurious interior immediately catches the eye, finished with Lati Grey wood accents, white leather upholstery, and blackout curtains all around. The lounge features a spacious circular seating area and an electric sliding roof from Webasto. Thanks to the many windows, you enjoy plenty of natural light and excellent panoramic views. The standing height of approximately 2.10 meters contributes to the spacious feel.

Below deck, there are two cabins, a separate bathroom with a shower, and a separate electric toilet. With four fixed berths and two extra berths, this motor yacht is suitable for comfortable weekend trips and longer stays on board.

Powerful and complete engineThis Maxima 37 is powered by a **270 hp Volvo Penta D4 diesel engine** from 2023, with a fixed propeller shaft. The combination of this engine and the generous dimensions makes the vessel suitable for comfortable trips on inland waterways and larger waterways.

For extra ease of maneuvering, the yacht is equipped with an electrically operated, weighted bow and stern thruster of 80 kgf, complemented by a Yachtcontroller with joystick and remote control. This makes maneuvering in harbors and when mooring considerably easier.

Particularly rich equipmentThis Maxima 37 is also very comprehensively equipped technically. The Garmin navigation package includes, among other things, a chart plotter, autopilot, log and depth sounder, and an additional 12-inch screen. The Fusion audio system with four ceiling speakers ensures pleasant entertainment on board.

Furthermore, the ship features, among other things:

Webasto 8,000 BTU air conditioning and heating.

A Paguro 5000 generator and a 3,000-watt Victron Quattro inverter.

Electric cooking, oven/combination oven and refrigerator.

Electric toilet, 40-liter boiler, and outdoor shower.

Artificial teak all around, an extended swimming platform and swimming ladder.

An adjustable cockpit table that can be converted into a sunbed.

A sun deck on the foredeck, LED lighting all around, and extra cleats on the aft deck.

New additional screen blinds for the front window, installed in May 2025.

VAT status verifiableThis Maxima 37 is being offered by the second owner. The original purchase invoice is available as proof of VAT status.

In short: an exceptionally complete and luxuriously appointed motor yacht with modern technology, great comfort, and excellent facilities for wonderful days and longer stays on the water. This motor yacht absolutely deserves a viewing.
