Description

This text has been translated automatically.

The 2017 Maxus 26 with bulb keel is a particularly appealing sailboat, offered here as a pre-owned boat in very good overall condition. As for propulsion, it is equipped with a reliable Yanmar 15 hp engine showing only 50 hours of operation. The sail plan is complete with a roller-furling genoa, full-batten mainsail with 3 automatic reefs, asymmetric spinnaker and gennaker, offering excellent sailing possibilities in all conditions. Very well equipped, it has the full B&G electronics suite, an autopilot, as well as a tender. Its Max-Prop folding propeller optimises performance under sail. The antifouling will be carried out prior to sale. A versatile, high-performing and particularly well-maintained sailboat, to be viewed promptly.
Act quickly to enjoy a boat ready to sail from the coming season.
