MAXUS 35
(DELIVERY IN NOVEMBER 2026)
It is hard to believe that this sailboat measures only 10.7 metres! Exceptional comfort and space for such a compact size. Whether it is the twin-wheel cockpit, the bathing platform or the ingenious design, you have to see it to believe it. From the moment you step inside, you are struck by the brightness and the warm atmosphere of the saloon and the three cabins.

With heating and air conditioning! And an electric winch of 1000W.

Maxus sailboats are built by the Northman shipyard in Poland, with a constant focus on quality and comfort.

The Maxus 35, nominated for the European Yacht of the Year title, is their current flagship model, designed for comfortable and safe sailing. It is described as a sturdy boat with a bright interior and a spacious cockpit. I can only agree!
