Description

This text has been translated automatically.

The Gozzo Mimì Libeccio 11 WA, an innovative model from the brand, was designed for those who want to enjoy the boat fully at 360°, even at the bow and not just at anchor.
Indeed, the forward seating area remains accessible even at 30 knots, and its two facing benches convert into a sunbathing area or, thanks to the table, into an aperitif space.
At the stern, the 5-seat bench with folding backrests provides a sunbathing area that is always available.
In the cockpit, circulation is free and unrestricted.
With the Libeccio 11 walkaround, the concept of the gozzo is reinvented. This boat now appeals to young people, enthusiasts of demanding water sports who expect comfort and elegance.
The only Gozzo in the world with a tender garage/water toys at the stern and capable of reaching 30 knots.

The Libeccio 11 WA features a rigid hardtop, supported only by two lateral arms.
This design is made possible by the lightness of the hollow structure of the roof, which provides sun protection thanks to its breathable mesh.
The spacious interior comprises two cabins, an indoor galley and a spacious bathroom with shower and elegant matt white fittings.
The interior layout is well finished, as shown by the galley worktops (customisable) and the suspended staircase that brings ventilation, space and light to the aft cabin. The forward cabin enjoys maximum privacy thanks to the wardrobe panels that serve as partitions.
References to classic style are present with mahogany inserts, a teak exterior and blue and white stripes recalled by wooden moulding strips.
