Description

Exceptionally well-equipped **2023 Nautitech 44 Open Owner's Version**, presented in the highly sought-after 3-cabin + skipper cabin layout.
Designed for sailors who refuse to compromise between sailing performance and onboard comfort, she embodies Nautitech's philosophy of delivering a true sailor's catamaran with elegant living spaces and outstanding offshore capability.

Her proven performance under sail is enhanced by a comprehensive wardrobe including an Incidence **fully battened mainsail, self-tacking Solent, Code D, Code 0** and **Oxley parasailor spinnaker,** making her equally enjoyable in light airs and offshore conditions.

Configured for extended bluewater cruising, sheoffers exceptional autonomy with a **600 Ah Victron Lithium** battery bank, **1,700 W of solar** panels, Victron Cerbo GX energy management system, **3,000 W inverter**, and an Aquabase **65 L/h watermaker**, allowing prolonged independence away from marinas.
Navigation equipment is equally impressive, featuring a **complete B&G electronics package** with three Zeus³ chartplotters.

The spacious Owner's Version layout provides an entire private port hull dedicated to the owner, including a generous cabin, reading lounge, separate **freshwater electric toilet** and private bathroom.
The starboard hull accommodates two comfortable guest cabins, a second bathroom and **separate toilet,** while the forward starboard peak has been professionally converted into a practical **skipper's cabin**.

Designed for comfortable life aboard, shealso benefits from numerous premium cruising features including **Starlink** 12V internet connectivity, **washing machine**, gas barbecue, teak cockpit table, water purification system, multiple refrigeration units, comfort mattresses throughout, extensive storage, and a complete offshore safety inventory.

Powered by twin Volvo Penta D2-50 engines with fewer than 700 operating hours, fitted with three-blade folding propellers and maintained to schedule by both professionals and her meticulous owner, she presents in excellent condition.
Her **Coppercoat hull protection** further reduces maintenance requirements while enhancing long-term cruising efficiency.
