Persennings	**bimini top**

Description

SOLEMAR OCEANIC 33 – 2005

One of the most commercially successful and internationally renowned 10-meter RIBs, a true bestseller from the Italian shipyard, famous for its exceptional seakeeping, high build quality, and excellent onboard ergonomics. This particular vessel is equipped with the largest tubes in its class (ORCA) and features new engines installed in 2019: Cummins QSD 4.2 Diesel (common rail), 2 × 320 HP, paired with Mercruiser Bravo III XR drives (also 2019), with only 320 operating hours. The boat offers an economical cruising speed of 32 knots with a total fuel consumption of just 60 liters per hour for both engines.

The vessel is exceptionally well equipped, including new canopies and upholstery (2018), teak foam 3M throughout the deck, new original teak on the bathing platform, a completely new electrical installation, electro-hydraulic steering with angle indicator, a 4 kW diesel generator with only 22 hours, air conditioning in all cabins, electric anchor windlass with remote control, chain counter with 80 meters of chain, electric stern anchor windlass with 30 meters of chain, bow thruster, 60-liter water heater, Simrad autopilot, Simrad 12” GPS-plotter-depth sounder, electronic engine controls with synchro, Simrad radar, 360-degree searchlight, EPIRB, Simrad VHF with additional battery and charger, liferaft for 10 persons, 300W solar panel, underwater lights, towing bar, two Alpine refrigerators, black water holding tank with carbon filters, stainless steel fuel and water tanks, hydraulic passerelle, multifunction engine display, engine room camera, boat alarm system, and TV antenna.

In 2025, the tubes underwent a professional repaint valued at €6,000. All maintenance and servicing have been carried out by Mercruiser using genuine spare parts, with purchase invoices available. Overall, this is a true value-for-money vessel with significant recent upgrades, especially considering that the current market price of the engines alone exceeds €100,000.
The boat is privately owned, VAT paid, and ready for immediate use.
Price to sell. (Commission 5% is not included.)
