Dreaming of a long voyage, distant destinations and the ultimate freedom on the water? The ORCA 38 “Dutchman” is a characterful, seaworthy sailing yacht for the adventurous sailor who wants to look beyond the horizon.
This unique vessel, designed by William Atkin, combines a classic appearance with a solid long-keel hull and fine sailing qualities. The current and previous owners have put a great deal of love and attention into the “Dutchman”. As a result, the boat regularly attracts attention on the water and receives plenty of compliments.
A vessel with ambitions for long-distance cruising With her length overall of 13 meters, sturdy long-keel construction and practical layout, the ORCA 38 is an excellent basis for a longer voyage around the world. On board you will find three cabins, no fewer than seven berths and a warm, classic interior in American hardwood. The standing headroom of approximately 1.96 meters contributes to comfort during extended stays on board.
The “Dutchman” also offers useful features when it comes to self-sufficiency. The water supply of 270 liters, fuel capacity of 200 liters, wind vane self-steering and existing electrical installations form a good basis for longer passages. In addition, a Schenker Smart 30 watermaker from 2018 is available as an option.
The reliable Nanni 4-cylinder diesel engine of 43 hp from 1993 provides the engine propulsion. The propeller shaft installation was completely renewed in 2021. Thanks to the existing autopilot and the Aries wind vane self-steering, the vessel also offers several steering options during longer voyages.
A voyage around the world starts with the right foundation. The ORCA 38 “Dutchman” is not an ordinary sailing yacht, but a vessel with character, history and possibilities. Following completion of the work on the deck, she offers a promising basis for a new owner with plans for long sailing trips, distant destinations and perhaps even a voyage around the world.
Are you looking for an individualistic, seaworthy vessel that invites you to cast off the lines and sail out to meet adventure? Then this ORCA 38 is absolutely well worth discovering.
