Description

As with any Pardo, design, style and living space are central to the boat, both inside and out. The continuity between interior and exterior is therefore essential on board the E60.

The E60 is equipped with lots of sleeping accommodation. Like the Master cabin which is positioned in the center of the boat with an impressive size, thanks to using the entire width of the boat. The VIP cabin, positioned in the bow of the boat with provision for a private bathroom, is available in a double bed or two single beds depending on the needs of the client. The third cabin has two large single beds and a large bathroom. Also striking is the crew cabin, which is accessible from behind the sun deck at the back of the boat, equipped with two beds, a toilet and direct access to the engine room. If I did that

With regard to the outside deck, the provision of maximum living space has been taken into account. This is made possible by, among other things, the returning Walk-around concept. And the possibility to open the outside area at the back of the boat creating a large terrace of 33 m2.

The yard would like to satisfy the customer with the demand of the current market. As a result, standard IPS 700 and optional IPS 800 have been chosen, which can be controlled with a joystick steering system.

As with any Pardo Yachts project, the shipyard also offers a lot of freedom and space for its own input. To compose the boat according to your own preferences in terms of layout, materials, fabrics, and colours

Disclaimer
If you are considering purchasing the Pardo Endurance 60, Orange Yachting is the ideal partner for the purchase of this luxury motor yacht. There are several reasons why Orange Yachting is the best choice for buying a Pardo Yacht, and this is not only because of their extensive knowledge of yachts, but also because of the service and support they provide to their customers.
