Description

The Pershing 64 is a striking blend of power, speed, and contemporary style. Its sleek profile and sharp, minimalist lines create an aggressive exterior design that perfectly reflects the yacht’s high-performance character. The specifications speak for themselves: the Pershing 64 reaches an impressive top speed of 44 knots and cruises comfortably at 32 knots.

A defining feature of every Pershing yacht is the abundance of natural light, and the Pershing 64 is no exception. The expansive glazing throughout the superstructure floods the interior with daylight, creating such a bright atmosphere that sunglasses may feel appropriate even inside the salon.

The open cockpit is both elegant and functional, featuring a spacious corner sofa aft and a large sunpad that conceals a tender garage beneath. Guests can enjoy light dining and refreshments outdoors thanks to the integrated bar area, complete with a refrigerator and grill. The generously sized galley is positioned on the lower deck and separated from the main living areas, ensuring maximum privacy and preventing cooking odors from spreading throughout the yacht.

The full-beam owner’s suite, located amidships, occupies more than one-third of the lower deck living space, offering exceptional comfort and privacy. Forward, the yacht features a luxurious VIP cabin with a double bed, while an additional twin cabin is situated to starboard. Each cabin benefits from its own private en-suite bathroom, delivering a refined onboard experience for all guests.

A comprehensive maintenance schedule has been planned for this winter, which will include the repainting of the yacht as part of the scheduled works.
