Deck equipment	**dinghy with motor (Brig with yamaha 40 hp (both new)), gangway electric**
Entertainment instruments	**mp3 player with bluetooth, radio**

Description

Pershing 65 2003

A timeless icon of Italian yacht-building excellence, the Pershing 65 is designed for those who demand performance, style, and an uncompromising yachting experience. With its imposing lines, aerodynamic profile, and electrically operated hardtop, this yacht stands out unmistakably in every marina. Powered by twin Caterpillar C30 high-performance engines, delivering 1,550 HP each, the yacht offers economical and comfortable cruising at 35 knots at 1,800 rpm, with an approximate fuel consumption of 400 liters per hour.
The engines underwent a full overhaul in 2021, with only 200 operating hours since overhaul and 2,170 total running hours. Combined with Arneson Surface Drive propulsion, the yacht delivers dynamic performance, exceptional stability, and outstanding comfort, even at high speeds. The interior layout accommodates 6 guests in 3 cabins, while 2 crew members are accommodated in a separate crew cabin with private bathroom. In 2021, the yacht also underwent complete osmosis treatment and hull repainting, ensuring excellent structural condition and presentation.

The vessel is commercially registered, certified for 26 passengers on a daily charter basis (international voyages), VAT paid, and Greek flag.
