Description

This text has been translated automatically.

The SE 28 has a refreshed look: a reversed bow and a distinct chine in the transition between the hull and the deck give it a unique appearance. The stern has been completely redesigned, with spacious berths and comfortable backrests that offer much greater comfort to the helmsman and crew. With 15 centimetres more beam than the SE 27 for an almost identical length, the boat appears larger and offers more space on deck and below.
