Sails	**gennaker, self-tacking jib**

Description

Saffier SE 28 Leopard – elegant, high-performing and versatile 28’ daysailer, ready for the sea
Discover the perfect balance between comfort, performance and maritime versatility with the Saffier SE 28 Leopard — a 28-foot daysailer with a modern design, suitable for lagoon trips, coastal weekends, or mini-cruises.
Cutting-edge design — fully redesigned hull with reverse bow and contemporary lines, ensuring smooth sailing and high performance both upwind and downwind.
Easy handling, even with a small crew — thanks to the standard self-tacking jib and all sheets and halyards led to the helm, it’s simple to manage even solo.
Versatile use — configurable in “comfort” mode with a relaxed sail plan (self-tacking jib, Code Zero) or “sport/regatta” mode with gennaker and high sail, ideal for dynamic sailors.
Comfort and custom livability — despite its 8.40 m hull (9.20 m with bowsprit), it offers four berths, a fully equipped galley, and a well-planned interior layout: perfect for weekends for two or with friends.
High customization — choose engine (diesel or electric), helm type (single or double wheel), finishes, deck and interior options; perfectly adaptable to the owner’s profile.
The Saffier SE 28 Leopard immediately conveys a sense of quality and attention to detail: elegant hull, well-finished deck, and spaces designed for real livability even in a “compact” boat. Ideal for those seeking a refined yet practical daysailer that delivers comfort and performance in a single vessel.
