Description

2026 fixed the hydraulic flaps that now work great; replaced the cockpit refrigerator; replaced the stereo speakers in the cockpit; redone all the upholstery of both the cushions and the awning and covers (white and beige); routine maintenance of engines and feet.
Service May 2025
Sells for passage to a higher category, beautiful, perfectly equipped,The boat has a perfectly livable cabin with removable memory mattresses (fresh summer cover) custom-made in June 2025.
The plumbing and LPG systems are fully functional and certified of conformity. The 2 gas cookers (indoor and outdoor) are fully functional and currently in use.
The stereo system is also fully functional with car radio, CD player, pen drive and bluetooth connection.
The bath is connected to a black water tank that is emptied by means of a special switch in the electrical panel. The sink tap in the internal bathroom extends and becomes a hand shower if necessary. On the aft swim platform there is a fully functional shower. The fresh water tank is equipped with a special electronic float with an indicator of the amount of fresh water present (located on the electrical panel). The freshwater autoclave is fully functional and performing.
The entire electrical system is fully functional and equipped with an electrical panel with individual switches for each light inside the cabin. The boat has an electric charging socket and connection to the electricity of the docks.
All position lights, as well as those of the cabin and cockpit, are fully functional via individual switches.
It has a predisposition for a TV antenna and predisposition for hot water boiler installation. Behind the pilot boat there is a Garmin navigation computer (value 1000€) with echo sounder, updated maps and speed detector in knots and KM/h. In addition, the boat is already equipped with a WHF that has not yet been registered, fully functional and frequently used.
Steel anchor worth € 1000 with 50 mt. steel chain and a special fully functioning electric winch with an emergency switch that trips in case of excessive effort (when the anchor runs aground) in order to avoid burning the motor.
2 groups of 2 fully functional batteries always recharged on the quay in case of prolonged non-use and with perfectly efficient charging alternators.
Very practical marquee for nautical camping that I assemble every time I do not use it in order to safeguard its cleanliness and its cabin is periodically washed and tidy as I currently periodically go out to sea for private use and never for Charter.
The boat has fully functional Hydraulic Flaps and the stern thrusters are made of steel which was brought to metal in May 2025, in the same month the hull was also washed, sanded and given Veneziani antifouling (photos, videos and invoices available works).
Double sundeck and the aft one transforms into a dining/dinner table.
