## Szczegóły

| | |
|---|---|
| Nr ID łodzi | **s312819** |
| Pierwsze wodowanie | **2003** |

## Dane techniczne

| | |
|---|---|
| Zanurzenie | **1,05 m** |
| Materiał kadłuba | **GFRP/tworzywo sztuczne** |

## silnik

| | |
|---|---|
| Model | **Torqeedo 1003** |
| Moc | **3 KM (2,2 kW)** |

## Wyposażenie

| | |
|---|---|
| Wyposażenie techniczne | **akumulator, automatyczny wentyl zęzowy, kotwica** |
| Pokrowce | **plandeka na kokpit** |

## Opis

Fast and comfortable day cruiser with foldable electric motor (2015) and trailer. This G2 NED-3 is in good condition and is fully race-ready. It has won several races and comes with beautiful sets of sails from De Vries and Miedema. The G2 features a patented system that allows the motor to be tilted flat and out of sight under the aft deck in an instant. The motor is an electric Torqeedo ring motor (2.5 kW) with a large lithium-ion battery (31.5 Ah, range 2 to 3 hours). When the motor is under the aft deck, the bottom closes completely with two small hatches for minimal resistance. The revolutionary and efficient bronze bulb keel ensures high stability with a relatively low total weight. Due to its high ease of operation and excellent trim characteristics, the boat was named HISWA Yacht of the Year. Additionally, it comes with a trailer with a NL license plate and a full boat cover (transport/winter cover). The underwater hull is coated with a smooth copper-containing epoxy. Available for viewing at the sales dock on the shore at Wehmeyer in Naarden.
