Wyposażenie techniczne	**gniazdka 220V**

Opis

Huge Price Reduction!! We are proud to bring this rare and unique yacht to the market. Stand out from the crowd with one of the fastest (if not the fastest) luxury yachts in Asia! With her triple MTU 2400 HP engines you are sure to get to the beach first. Having only run around 1150 hours she has had very light use since new, this is a big advantage to her next owner and it is clear to see given the great condition she is in. Viewing by appointment please schedule your viewing with us now.
