Pokrowce	**sprayhood**
Żagle	**spinaker**

Opis

Omega 36 – Ron Holland Design – Yanmar 28 HP (2009) – Bow Thruster – Exceptionally Well Maintained

Well-maintained and extensively upgraded Omega 36 featuring a newer Yanmar engine, bow thruster, and an impressive equipment specification.

The Omega 36 is one of the most sought-after performance cruisers of the 1980s. Designed by the renowned yacht designer Ron Holland and built by the respected Swedish shipyard Bröderna Börjesson, the Omega 36 combines outstanding sailing performance with superb build quality, timeless Scandinavian design, and excellent cruising comfort.

This particular Omega 36 presents in very good condition and has been continuously upgraded over the years. One of the most significant improvements is the reliable Yanmar 28 HP diesel engine from 2009, with only approximately 1,075 engine hours. Combined with fresh-water cooling, a three-blade folding propeller, and a bow thruster, she offers reliable performance, economical operation, and effortless manoeuvring.

The spacious cockpit is perfectly equipped for comfortable cruisingwith a sprayhood, cockpit enclosure, cockpit table, integrated bathing platform, swimming ladder, and cockpit shower—ideal for both weekend sailing and extended holidays on the water.

The sail inventory includes a Quantum mainsail (2012), furling genoa on a Furlex furling system, spinnaker, additional mainsail, additional genoa, and a self-tacking jib, making the yacht easy to handle even with a short-handed crew.

Navigation equipment includes a Garmin 5012 chartplotter, autopilot, AIS, VHF radio, wind instruments, log, and compass, ensuring she is fully equipped for safe and enjoyable cruising.

The Omega 36 has earned an outstanding reputation for her sailing performance. She is fast, responsive, and exceptionally well-balanced while still offering the comfort expected from a true cruising yacht. Ron Holland's proven hull design, deep lead fin keel, and efficient fractional rig make the Omega 36 a favourite among both cruising sailors and racing enthusiasts.

If you are looking for a classic, high-quality yacht with excellent sailing characteristics, a modern engine, and an attractive level of equipment, this Omega 36 is an outstanding opportunity.
