Zbiornik na paliwo	**60 ltr**

silnik

Model	**Suzuki DF 100 BTL**
Moc	**100 KM (74 kW)**

Wyposażenie

Wyposażenie techniczne	**akumulator, pompa zęzowa elektryczna, światła pozycyjne**
Wyposażenie pokładu	**drabinka kąpielowa**

Opis

Tornado High Performance now in the online auction. everyone can bid until 14 December 2026.
tornado 540 high performance with trailerwhat type of boat is the tornado 540?the tornado 540 high performance is a 2005 RIB measuring 5.40 metres in length and 2.35 metres in beam. she is built from polyester and has a deep V-shaped hull. this makes the boat suitable for stable cruising and direct response on the water. the tubes are made from PVC. the boat is suitable for day trips, leisure boating, weekend use and holidays on inland waterways, canals, ditches, lakes, pools, rivers and at sea.
the stated condition of the boat is good. she was last out of the water for maintenance in 2026. according to the information provided, the boat has been used for various forms of recreational boating. the stated weight is approximately 700 kilograms including the engine and a full fuel tank, but excluding the weight of the trailer.
tornado high performance now in the online auction. everyone can place a bid until 14 December 2026.which engine is fitted to the boat?the tornado is powered by a 2023 suzuki df 100 btl outboard engine. this four-cylinder engine produces 100 hp and is electrically started. according to the information provided, the engine is in working order and has approximately 50 operating hours. the fuel tank has a capacity of 60 litres and uses petrol.
on board, there is an oil pressure gauge, temperature gauge and rev counter. the combination of the deep V-shaped hull and the 100 hp suzuki makes this set suitable for anyone looking for a sporty RIB with sufficient power for recreational use. the exact performance depends on the load, water conditions and how the boat is used. during the viewing day, you can carefully inspect the engine, its mounting and the overall condition of the boat.
which equipment is included?the boat is offered with a full-cover boat cover and a console cover. it also has a VHF radio, Garmin trip meter, depth sounder, GPS, compass and a log and speedometer. in addition, it is equipped with navigation lights, oars, an anchor line, a boarding ladder and a self-draining cockpit.
an electric bilge pump is fitted for removing water. the information provided also mentions two bilge pumps. the available equipment therefore provides a practical basis for day trips and recreational use. the presence, operation and condition of the individual components can be checked during the viewing day.
is the trailer included?yes, the tornado is offered with a 2020 Vanclaes road trailer. it is a braked, single-axle trailer, type RIB Marine 1350. it has a load capacity of 1,350 kilograms, sixteen rollers and a trailer winch. the trailer is not tilting and has a registration plate.
additional features listed include a step above the mudguard, a flushing system at the drum brake, a walkway and Boat Buckle tie-down straps. the condition of the trailer is stated as good. the combination offers a practical way to transport the boat by road, although you should of course check yourself whether the total weight and required towing capacity are suitable for your car and driving licence.
what should you look out for during the viewing day?during the viewing day, you can calmly inspect the hull, tubes, cockpit, console, engine and trailer. pay attention to visible damage, the condition of the PVC, the state of the covers and the operation of the equipment present. you can also check the trailer's tyres, rollers, winch, braking system and attachment points. the viewing day is intended to assess the boat on site. there is no opportunity to take the boat out on the water yourself.
when searching online for a boat to buy, people often look for a combination of engine, equipment and transport options. this tornado is offered as a set with a suzuki outboard engine and road trailer. this may be of interest if you want to buy a used boat without having to look for a suitable trailer separately. when considering tips for buying a boat, it is advisable to look not only at length and power, but also at the condition of the tubes, engine hours, trailer and available documentation.
who is this boat suitable for?this tornado is suitable for you if you are looking for a sporty RIB for recreational use on various types of water. its size provides space for day trips, while the trailer makes it possible to reach different boating areas. no special boating characteristics have been stated apart from its deep V-shaped hull, making it important to form your own realistic impression of its layout and condition during the viewing day.
the suzuki engine dates from 2023 and, according to the information provided, has approximately 50 operating hours. the RIB itself dates from 2005. this difference in year of construction is relevant to your assessment, as is the condition of the PVC tubes, hull, electrical system and trailer. therefore, inspect all components carefully before placing a bid.
what is being auctioned?in this auction, the tornado 540 high performance is offered with its suzuki df 100 btl outboard engine and Vanclaes RIB Marine 1350 road trailer. the set includes a boat cover, console cover, navigation equipment and various practical accessories. the information in this text is based on the information available from the client. during the viewing day, you can assess for yourself whether this boat meets your needs and expectations.
